SIATech is an award-winning charter high school in partnership with Job Corps, WIOA programs, and school districts, the schools serve low-income, previously out-of-school youth. SIATech individualizes instruction to meet each student’s strengths, needs, and goals. The school’s safe and caring setting enables students to re-engage, take charge of their learning, and obtain the tools needed to be college-and career-ready. SIATech’s family of schools has graduated more than 15,000 previous dropouts since 1998.

SIATech high school sites are located in the following cities:

Chula Vista
El Centro
Indio
Long Beach
Los Angeles

Moreno Valley
Oceanside
Sacramento
San Bernardino
San Diego
San Jose

15,000 Graduates and Counting!

SIATech schools have provided the gateway to a better future for more than 15,000 graduates!

College-Going Rates

SIATech schools provide an environment for students to get ready for college and careers. Within two years of graduation, an average of 32% of SIATech graduates will enroll in an institution of higher learning. SIATech is proud of its alumni and support their individualized paths to lifetime goal fulfillment.

Social-Emotional Learning

SIATech students are engaged consistently and constantly in their curriculum and classrooms. Results from the Gallup Student Poll’s demonstrate that SIATech students frequently give higher responses than student responses in the nationwide sample. In spite of previous difficulties in school, SIATech students are back on-track to success.
SIATech helps teachers take their professional development to the next level no matter where they are on the skill continuum. Its comprehensive offerings help all educators foster continuous improvement—key to guiding an increasingly broad range of learners toward graduation and a successful future. In 2008, we expanded our outreach by creating RAPSA (Reaching At-Promise Students Association) to sponsor conferences, workshops, webinars, and provide an online resource repository for K-12 teachers, administrators, counselors, coaches, and volunteers of at-risk students.

### Job Corps

SIATech campuses are currently located in partnership with Job Corps. Job Corps is the largest nationwide residential career training program in the country and has been operating for more than 50 years. The program helps eligible young people ages 16 through 24 complete their high school education, trains them for meaningful careers, and assists them with obtaining employment. The curriculum used in the SIATech at Job Corps program is replicable, and in fact has been implemented at all of the California Job Corps sites.

### Independent Study & Community

SIATech is a unique high school diploma program that blends the latest computer technology with an academic curriculum based on state standards. SIATech emphasizes professional development to ensure teachers are well-prepared for the classroom.

The high school diploma program is fundamentally student-centered. It seeks to assess the needs of each individual student and engage them appropriately. A competent and caring staff provides hands-on assistance as students work at their own maximal pace to complete individual programs of study.
